### Community Leadership Forum ”A Learning Community for All”

UnitingCare Community Options has been working towards achieving a greater impact in community living for those individuals who are marginalised in our community. In line with this, the *Community Leadership Forum* was established in 2003 as a centre for learning & leadership that focuses on the issues surrounding community inclusion faced by marginalised groups. Community Leadership Forum events are open to everyone, including service consumers, community members and professionals. It seeks to enable continued professional development as well as to provide valuable opportunities for those vulnerable individuals within the community to empower themselves through knowledge and learning.

*The Community Leadership Forum is an inclusive group focussed on learning & development activities for people in our community. As such, special rates are available for concession card holders, service consumers & people with disabilities.*
